

18 JUL 1972

Honorable Charles B. Rangel
House of Representatives
Washington, D. C. 20515

Dear Mr. Rangel:

Enclosed herewith is an advance copy of the forthcoming World Opium Survey of 1972 which I have mentioned to you in our recent correspondence and conversations regarding the illegal narcotics traffic.

This survey has been prepared under the auspices of the Cabinet Committee on International Narcotics Control. It is based on contributions from a number of Federal agencies, including CIA, and contains the essence of relevant material available to CIA. In particular, it encompasses the main points and conclusions of the nine classified reports which you requested some time ago but is more up-to-date and somewhat broader in scope than these reports.

Since the survey has been prepared on an unclassified basis, we believe it may be more readily adaptable to our understanding of your requirements than the classified reports which you had originally requested. However, as we have noted on several previous occasions, we stand ready to provide you with a classified briefing on the subject of the illicit drug traffic at your convenience. If you would like such a briefing, please have a member of your staff call my office to make the arrangements.

Sincerely,

[Redacted Signature]

John M. Maury
Legislative Counsel
